

Issued by JPAC: 29 June 2017

Implementation: To be determined by each Service

Change Notification UK National Blood Services No. 14 - 2017

This change applies to the Whole Blood and Components Donor Selection Guidelines

Tissue and Organ Recipients

Please modify "Obligatory" as follows:

Obligatory

Must not donate if:

1. At any time has:

- a) Needed immunosuppression.
- b) Had dura mater transplanted.
- c) Had a stored autologous tissue, matrix implant or organ transplanted (*stored autologous fresh or stored autologous frozen egg/embryo transfers as part of IVF treatment are not included in this category and can be accepted*).
- d) Had ocular tissue transplanted.
- e) Had a Xenotransplant performed.

2. Since January 1st 1980:

Has had an allogeneic human tissue or organ transplant.

Reason for Change

The issue around the acceptance of donors who have had IVF treatment with fresh or frozen autologous eggs or embryos has been clarified and added.
