

Issued by JPAC: 17 January 2018

Implementation: To be determined by each Service

Change Notification UK National Blood Services No. 01 - 2018

Poisoning

These changes apply to all the Tissue and Cells Donor Selection Guidelines.

This is a new entry.

Obligatory

Must not donate if:

There is evidence that the individual (donor/or mother of cord blood donor) has ingested, or been otherwise exposed to toxic substances that could be transmitted in donated material in dosages that could endanger the health of recipients.

Discretionary

If the individual is being monitored following exposure and the levels of the agent in question are within safe limits, accept.

See if Relevant

Addiction and Drug Abuse

Additional Information

Advice may be sought from the National Poisons Information Service if required.

Reason for Change

This is a new entry. This is a requirement of the Human Tissue Authority Guide to Quality and Safety Assurance for Human Tissues and Cells for Patient Treatment
