

Date of publication: 30 October 2017

Implementation: To be determined by each Service

Change Notification UK National Blood Services No. 23 - 2017

Applies to the Tissue Donor Selection Guidelines for Live Tissue Donors, Deceased Tissue Donors, Cord Blood Donors and Bone Marrow & Peripheral Blood Stem Cell Donors

Tissue and Organ Recipients

Please make the change shown in blue to the “Discretionary” and “Reason for Change” sections of all the guidelines mentioned above.

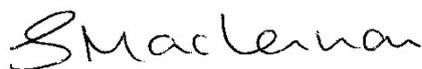

Discretionary

a) If an allogeneic tissue **or cell** transplant was performed before January 1st 1980 and there is no other reason to exclude the donor, accept.

b) If at anytime **a non-stored** an autologous tissue, **or cells**, has been transplanted, accept.

Reason for Change

To clarify that transplantation of an autologous tissue, **or cells**, is not a contra-indication to donation, whether or not the tissue, **or cells**, were stored prior to transplantation
