## **1. Introduction**

A collaborative project was undertaken by NHS Blood and Transplant and the Scottish National Blood Transfusion Service to investigate the prescribing or more properly authorisation of blood transfusions by nurses and midwives. Section 130 of the 1968 Medicines Act has been amended by Section 25 of the Blood Safety and Quality Regulations 2005 (SI 2005 no 50). In effect this means that blood and blood components (Red Cells, Platelets, Fresh Frozen Plasma and Cryoprecipitate) are excluded from a legal definition of medicinal products and therefore cannot be 'prescribed' by any practitioner. There is therefore no legal barrier to registered non-medical professionals authorising a blood transfusion. Following wide consultation, a Governance Framework was developed to support this role development.

## **2. Purpose**

In responding to the changing needs of patients and clinical practice, some senior and experienced non-medical practitioners have been considered in authorising blood transfusions. This guideline only applies to Non-medical specialist practitioners e.g. Specialist Nurses, Specialist Midwives and Specialist Physiotherapists and as identified by the relevant consultant for the Specialty.

It is expected that the patient will benefit due to:

- (i) A reduced delay in the decision to transfuse
- (ii) A reduced delay in authorising the transfusion
- (iii) The decision to transfuse will be made by an experienced non-medical practitioner who has an in-depth knowledge of the patients undergoing transfusion.

This guideline establishes the criteria and assessment framework required for the authorisation of blood components by non-medical authorisers. This guideline will ensure that the assessment is transferrable, on agreement with their relevant consultant, for staff moving to any Trust within the North East region. If staff move around the region, the decision to authorise blood components will be made when both the consultant and non-medical practitioner feel competent to do so.

## **3. Definitions**

The Delegator will be the relevant consultant responsible for the care and treatment of an individual patient.

The Delegate is the non-medical practitioner who will authorise the blood component.

Delegation will be agreed by the Director of Nursing or relevant head of professions and the relevant consultant lead for the department. Delegation is planned through agreed and accepted clinical practice.

## **4. Duties**

Relevant Consultant

- (i) The relevant consultant is responsible for monitoring the patient's progress.
- (ii) The relevant consultant is responsible for drawing up a clear plan of treatment for patients requiring transfusion of blood components.
- (iii) The relevant consultant will act as mentor and assessor and must be up to date with mandatory transfusion training.

## Non-medical Authoriser

- (i) The non-medical practitioner will identify a relevant consultant as a mentor and assessor.
- (ii) The non-medical practitioner will be responsible for gaining adequate knowledge and experience prior to assessment and must be up to date with mandatory transfusion training.
- (iii) The non-medical practitioner will demonstrate competence according to the competency document.

## 5. Training

In order for the non-medical authoriser to apply for the training they must have at least 3 years' experience relevant to transfusion, approval and support from their relevant consultant. The non-medical authoriser must attend the education day/s provided by the North East Regional Transfusion Committee or one of the national NHSBT course non-medical authorisation courses and complete the assessments within an agreed timeframe.

The training will include:

- (i) Overview of components
- (ii) Transfusion reactions
- (iii) Significance of antibodies and appropriate blood selection
- (iv) BSH administration guidelines, documentation and reporting of incidents
- (v) Legal requirements
- (vi) Appropriateness, indications for transfusion and Hb triggers
- (vii) Scenarios

## 6. Equality Impact Assessment

To be undertaken once the guideline has been approved by the NE RTC.

## 7. Monitoring Compliance with the Document

- i Non-medical authorisations of blood components will be reviewed by individual Trust Transfusion Committees through audit of compliance.
- ii Non-compliance by the non-medical authoriser will be dealt with as per local Trust policy.

## 8. Standards/Key Performance Indicators

Patients receiving a transfusion, in accordance with this policy, will not experience any time delays due to the authorisation of the blood component. The authorisation of blood components will be audited both locally and regionally. The regional results will be fed back to the Regional Transfusion Committee.

## Appendix A - Checklist for the Review and Approval of Procedural Documents

To be completed and attached to any document which guides practice when submitted to the appropriate committee for consideration and approval.

	<b>Title of document being reviewed: Guideline for the authorisation of blood components by nurse authorisers</b>	<b>Yes/No /Unsure</b>	<b>Comments</b>
<b>1.</b>	<b>Title</b>		
	Is the title clear and unambiguous?	Yes	Y
	Is it clear whether the document is a guideline, policy, protocol or standard?	Yes	Y
<b>2.</b>	<b>Rationale</b>		
	Are reasons for development of the document stated?	Yes	Y
<b>3.</b>	<b>Development Process</b>		
	Is the method described in brief?	Yes	Y
	Are individuals involved in the development identified?	Yes	Y
	Do you feel a reasonable attempt has been made to ensure relevant expertise has been used?	Yes	Y
	Is there evidence of consultation with stakeholders and users?	Yes	Y
<b>4.</b>	<b>Content</b>		
	Is the objective of the document clear?	Yes	Y
	Is the target population clear and unambiguous?	Yes	Y
	Are the intended outcomes described?	Yes	Y
	Are the statements clear and unambiguous?	Yes	Y
<b>5.</b>	<b>Evidence Base</b>		
	Is the type of evidence to support the document identified explicitly?	Yes	Y
	Are key references cited?	Yes	Y
	Are the references cited in full?	Yes	Y
	Are local/organisational supporting documents referenced?	Yes	Y
<b>6.</b>	<b>Approval</b>		
	Does the document identify which committee/group will approve it?	Yes	Y
	If appropriate, have the joint human resources/staff side committee (or equivalent) approved the document?	NA	N/A

	Title of document being reviewed: Guideline for the authorisation of blood components by	Yes/No/ Unsure	Comments			
<b>7.</b>	<b>Dissemination and Implementation</b>					
	Is there an outline/plan to identify how this will be done?	Yes	Y			
	Does the plan include the necessary training/support to ensure compliance?	Yes	Y			
<b>8.</b>	<b>Document Control</b>					
	Does the document identify where it will be held?	Yes	Y			
	Have archiving arrangements for superseded documents been addressed?	Yes	Y			
<b>9.</b>	<b>Process for Monitoring Compliance</b>					
	Are there measurable standards or KPIs to support monitoring compliance of the document?	Yes	Y			
	Is there a plan to review or audit compliance with the document?	Yes	Y			
<b>10.</b>	<b>Review Date</b>					
	Is the review date identified?	Yes	Y			
	Is the frequency of review identified? If so, is it acceptable?	Yes	Y			
<b>11.</b>	<b>Overall Responsibility for the Document</b>					
	Is it clear who will be responsible for coordinating the dissemination, implementation and review of the documentation?	Yes	Y			
<b>Individual Approval</b>						
If you are happy to approve this document, please sign and date it and forward to the chair of the committee/group where it will receive final approval.						
Name	Megan Wrightson	Date	24/06/2019			
Signature						
<b>Committee Approval</b>						
If the committee is happy to approve this document, please sign and date it and forward copies to the person with responsibility for disseminating and implementing the document and the person who is responsible for maintaining the organisations database of approved documents.

## Appendix B - Equality Impact Assessment Tool

To be completed and attached to any procedural document when submitted to the appropriate committee for consideration and approval.

		Yes/No	Comments
1.	<b>Does the document/guidance affect one group less or more favourably than another on the basis of:</b>		
	• Race	No	
	• Ethnic origins (including gypsies and travellers)	No	
	• Nationality	No	
	• Gender	No	
	• Culture	No	
	• Religion or belief	No	
	• Sexual orientation including lesbian, gay and bisexual people	No	
	• Age	No	
	• Disability - learning disabilities, physical disability, sensory impairment and mental health problems	No	
2.	<b>Is there any evidence that some groups are affected differently?</b>	No	
3.	<b>If you have identified potential discrimination, are there any exceptions valid, legal and/or justifiable?</b>	NA	
4.	<b>Is the impact of the document/guidance likely to be negative?</b>	No	
5.	<b>If so, can the impact be avoided?</b>	NA	
6.	<b>What alternative is there to achieving the document / guidance without the impact?</b>	NA	
7.	<b>Can we reduce the impact by taking different action?</b>	NA	

If you have identified a potential discriminatory impact of this procedural document, please refer it to [Janice.robertson@nhsbt.nhs.uk](mailto:Janice.robertson@nhsbt.nhs.uk) together with any suggestions as to the action required to avoid/reduce this impact.

For advice in respect of answering the above questions, please contact Megan Wrightson at [Megan.wrightson@nhs.net](mailto:Megan.wrightson@nhs.net)

## Appendix C - Version Control Sheet

Version	Date	Author	Status	Comment
1	02.03.11	North East Transfusion Practitioners	Invalid	Original document.
2	04.03.15	North East Transfusion Practitioners	Valid	Slight amendments made – combined red cell and platelet guidelines.
3	Jan 19	North East Transfusion Practitioners		Slight amendments made- addition of national NHSBT non-medical authorisation course and changed for name BCSH-BSH. Also change of wording from 'Nurses' to 'Non-medical practitioners' to incorporate other professions that are taking up specialist roles where authorisation of blood is safe and appropriate.

## Appendix D - Plan for Dissemination of Procedural Documents

To be completed and attached to any document which guides practice when submitted to the appropriate committee for consideration and approval.
