

Completion Date:

Annual Review Date:

Skills and Knowledge Framework for staff involved in the Blood Transfusion Care Pathway

∪ K = Knowledge and/or Information at induction only

∪S = Skills requiring top-up / regular training / assessment of competency

Leave blank if you feel this area is not applicable to the group of people within your Trust

	This will only apply if staff are actually involved in performing a task ie. Nurses collecting blood will need K&S but if they are not involved in collection may only need K								
	BMS	MLA	Phlebotomist	Nursing / midwifery	Medical	ODA/ ODP	Hospital Support Worker	Perfusionist	Other e.g. ATO
Phlebotomy									
Pre-transfusion sampling									
Requesting									
Pre transfusion testing									
Issue of components									
Collection of components									
Bedside checking									
Observations									
Documentation									
Transfusion Reactions									

Note: This is a guidance document and can be modified at Trust level to accommodate different roles & activities undertaking tasks
